

Geography study guide, Term 2 Exam

For the 6th grade Geography Term 2 Exam, students may be assessed on:

- 4 and 6 number coordinate systems
- Land use
- Settlement patterns
- Interpreting Ordnance Survey maps
- Contour lines
- different types of maps

The one-period exam will include not less than 1 essay, 2 short answer, and 10 multiple choice questions. You will have a single map to interpret, identifying features and locations.
